

REGEN CONGRESS 2026

THE FUTURE OF AESTHETICS,
WELLNESS & LONGEVITY

11-12TH SEPTEMBER 2026

VENUE
Delhi NCR

About Us

The Regen Congress is a platform dedicated to regenerative aesthetics, longevity medicine, wellness, and advanced clinical practice. It brings together doctors and global experts to share knowledge, innovation, and the future of medical aesthetics and longevity.

This conclave merges three rapidly growing domains:

- Wellness & Longevity – Hormonal balance, nutrition, IV therapies, biohacking, regenerative medicine, and healthy ageing
- Practice Management & Social Media – Clinic growth, patient experience, branding, and ethical digital marketing
- Aesthetics – Skin, hair, lasers, and anti-ageing treatments

Our mission is simple:

Our mission is to bring together doctors to stay updated on skin health, longevity, and wellness. The conference will focus on practical, evidence-based treatments, regenerative therapies, supplements, and modern practice building – helping doctors deliver better patient outcomes and build stronger practices.

Key Speakers

DR. SONJA SATTLER

Aesthetic Medicine
Specialist, Germany

President Regen 2026

Dr. Sonja Sattler is an internationally respected aesthetic physician known for her expertise in advanced injectables and facial rejuvenation. She is a global trainer and speaker, recognized for her precision techniques and focus on natural, balanced results.
